

HIGH TECH INNOVATIONS FOR THE
GLASS INDUSTRY „MADE IN BAVARIA“.

LA C-PROTECTION

LIQUID SYSTEM FOR CORROSION PROTECTION

The LA C-PROTECTION made by Grafotec Spray Systems is the world-leading application system and has been specially developed for applying corrosion protection liquids to float and flat glass.

- Optimized for liquid corrosion protection.
- Roller system for an absolutely fine and homogeneous application.
- Easy to use and efficient in terms of both energy consumption and release agent consumption.
- Flexible and adaptable to different production conditions.
- Reliable design and low-maintenance “Made in Bavaria”.

LA C-PROTECTION

LIQUID SYSTEM FOR CORROSION PROTECTION

The LA C-PROTECTION made by Grafotec Spray Systems is the world-leading application system and has been specially developed for applying corrosion protection liquids to float and flat glass.

The nozzleless spray system provides fine and uniform application. The innovative design permits maintenance work without interrupting the production process.

Technical Specifications:

Application Type:	Contact free liquid roller system for corrosion protection.
Release Agent:	Most separator agents for corrosion protection on the market.
Special Features:	<ul style="list-style-type: none">✓ Automatic and manual application width adjustment.✓ Automatic speed adjustment.✓ Adjustable supply pump.✓ Automatic mixing unit.

All LA C-PROTECTION systems can be individually adjusted according to your needs and product lines.
